MONTANA TRACK CLAWS, Incorporated

NEW PRE-SEASON INVENTORY Get Them While They Last!

Hundreds of Satisfied Customers Coast to Coast

Track Claws are reusable, quick connect traction devices that require no welding or cutting.

Their unique "V" design provides penetrating traction while minimizing side slippage for improved safety.

Track Claws can be installed in minutes using only a ratchet and socket. No pad bolts are used in the installation - they bolt through the clean out hole using a special bottom plate (included) and a zinc plated grade 8 bolt.

Durable and reusable, Track Claws are made of higher grade material than track pads. Then they are heat treated creating a durable product that can be reused many times.

Track Claws are available for all popular styles of track pads including single, double and triple grouser bar styles. For pads without cleanout holes, a template will be provided.
